# Jouer Historique (2ème partie: Matériel)

par Alain Bonet

Dans cette partie, j'indique à quel niveau technologique les différents outils et équipements deviennent disponibles. J'utilise pour cela une liste de matériel établie à partir du supplément ... and a 10-foot pole, complétée et réorganisée selon mes propres besoins. Je vous renvois à ce supplément pour les détails.

Cette liste reste schématique. Toutes les cultures de même niveau technologique ne disposent pas des mêmes réalisations; certains articles disponibles dans une civilisation ne se répandront dans une autre que bien plus tard, à un niveau technologique supérieur (par exemple, la brouette, apparue en Chine à l'âge du fer, n'apparaît en Europe qu'à la fin de la Renaissance).

Néanmoins, cette classification devrait éviter de gros anachronismes. Merci de me signaler toute erreur ou omission :-)
